Masami Stonebridge

Junior Developer & Graphic Designer

Professional Profile

I am enthusiastic and diligent about creative work. I have a passion in web and mobile application development and am now ready to utilise my skills.

Currently, I am in a Software Development course which extends my skills in web, mobile application both front and back end, programming such as game development, the latest project methodology and business concepts. Overall, I achieved an average of 'A' grades for which I studied hard and enjoyed completing. In addition, I have shared my achievements and study journey at several school open days and Future Expo.

I have three years experience in the design industry which complements my Software design skills.
